Small kitchen heating appliances

The Coordinated Activities for the Safety of Products (CASP) projects enable all market surveillance authorities from EU/EEA countries to cooperate in reinforcing the safety of products placed on the European markets.

The Directorate-General for Justice and Consumers organised a priority setting exercise to gather input from Member States regarding the choice of products and activities for the coordinated activities. Small kitchen heating appliances were identified as a priority for a targeted safety investigation.

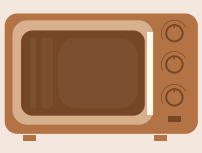

Mini ovens, deep fat fryers, waffle irons and toasters are used in homes across Europe – it is essential to only produce and sell appliances that meet EU safety requirements.

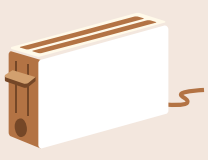

Contact grills or waffle irons

Deep fat fryers

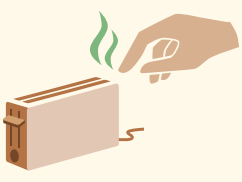

Mini ovens

Toasters

CONSUMERS ARE AT RISK

if unsafe kitchen appliances are on the market.

Burns

Severe electric shocks

YOU ARE RESPONSIBLE!

Make sure all appliances fully comply with EU safety rules.

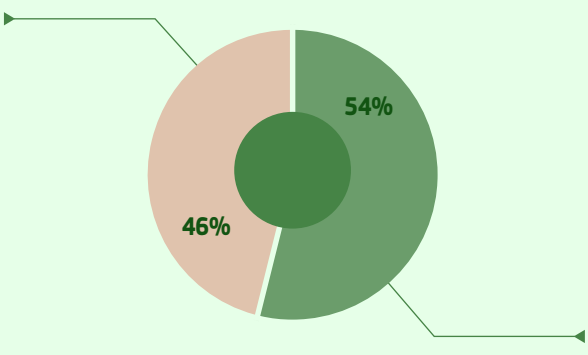

Always provide clear and simple instructions and safety information in the language of the country of sale.

If you note one of your products does not meet the requirements of the relevant safety legislation, inform your national authority or report it on Business Gateway.

We can all help to keep each other safe.

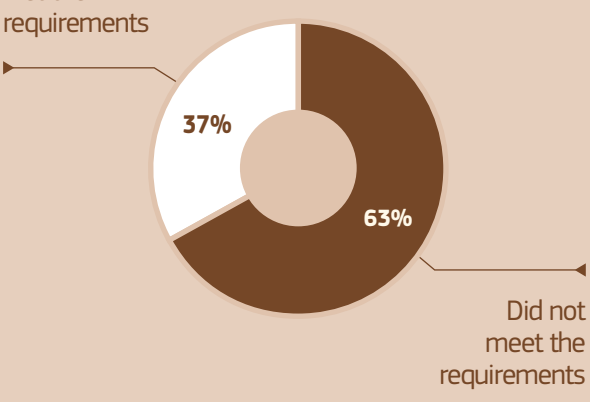

The national authorities responsible for product safety gathered samples of different types of small kitchen heating appliance from the market or online market places and tested them to check if they were safe. Tests focused on mechanical and electrical safety (power supply, internal wiring, fire hazards, etc.)

TOTAL NUMBER OF SAMPLES: 89

OVERALL TESTING RESULTS

89 samples

Please note that not meeting the requirements does not necessarily imply a serious risk.

RISK LEVEL OF THE SAMPLES THAT DID NOT MEET THE REQUIREMENTS

No risk	2
Low	31
Medium	3
High	10
Serious	0
To be determined	10

NUMBER OF SAFETY GATE NOTIFICATIONS

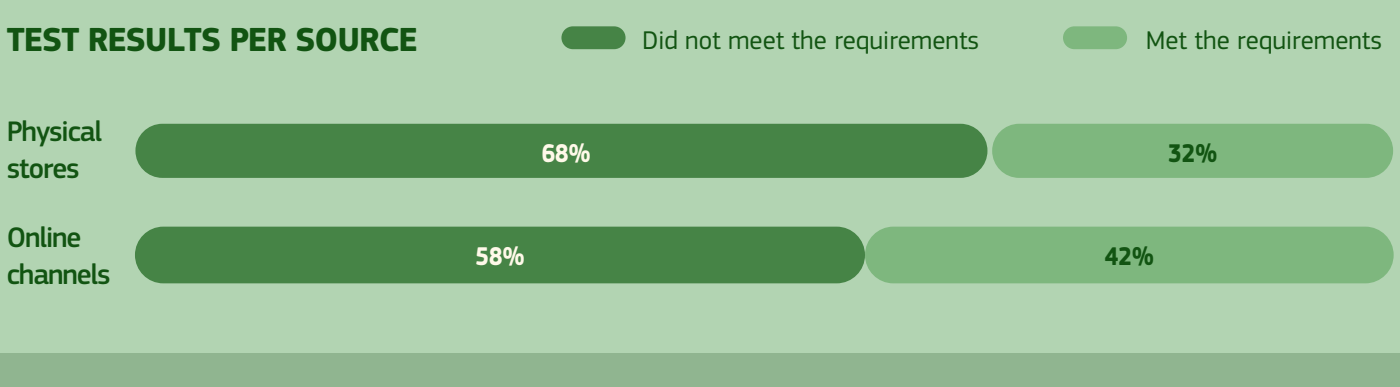

Issued: 4

Pending: 0

TEST RESULTS PER SOURCE

THE TESTING OF THE PRODUCTS TOOK PLACE IN ACCORDANCE WITH THE FOLLOWING STANDARDS:

For mini ovens and contact grills / waffle irons

EN 60335-2-9:2003 + A1:2004 + A2:2006 + A12:2007 + A13:2010 for Household and similar electrical appliances – Safety – Particular requirements for grills, toasters and similar portable cooking appliances.

For deep fat fryers

EN 60335-2-13:2010 + A11:2012 + A1:2019 for Household and similar electrical appliances – Safety – Particular requirements for deep fat fryers, frying pans and similar appliances.

PARTICIPATING Market Surveillance Authorities

Austria	Federal Ministry for Digital and Economic Affairs	Finland	Finnish Safety and Chemicals Agency (Tukes)
Croatia	State Inspectorate	Germany	Department of Market Surveillance, Government of Upper Bavaria *and* District Government of Arnsberg
Cyprus	Department of Electrical and Mechanical Services - Ministry of Transport, Communication and Works	Malta	Malta Competition and Consumer Affairs Authority (MCCAA)
Czech Republic	Czech Trade Inspection Authority	Sweden	National Electrical Safety Board (Elsäkerhetsverket)
Denmark	Danish Safety Technology Authority
